

# Toll Processing

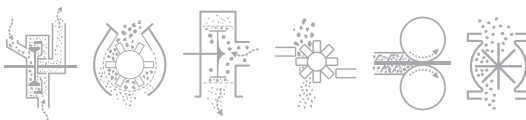

Since 1925 Prater-Sterling has been manufacturing dry material processing equipment for the food, confectionary, chemical, powder coating, mineral, pharmaceutical and agricultural industries.

With over 90 years of experience and thousands of installations worldwide, Prater-Sterling offers its extensive process engineering expertise for custom toll processing.

Prater-Sterling is a global leader in developing state-of-the-art equipment in particle reduction, separation, metering, compacting, batch weighing as well as complete control systems.

Prater-Sterling maintains a separate 10,000 square foot toll-processing center with the latest analytical equipment to assure quality control of all production runs. Test equipment includes laser particle analyzers (Malvern) Ro-Tap, Jet Sieve, and moisture analyzers.

## TOLL PROCESSING SERVICES

- Crushing
- Hammer milling
- Fine Grinding
- Air Classifier Mills
- Compactors / Briquetters
- Screening
- Air Classifying
- Particle Analysis
